

CUSTOM PRINTED FABRIC TABLECOVER

Maximize the professional presence of your exhibit area with a Custom Branded TableCover. Branded table covers are an excellent low-cost marketing tool. They are versatile, high impact in appearance, easy to travel and last a very long time as branding is usually related to identity and logo/web address etc.....branding that is not likely to change.

There are three Table Cover options. Each of these Table Covers is six feet in length and has four sides. With these options you have the ability to print logos/taglines/web addresses etc on the Front, Back,Top and both ends. Please note this is a full colour print process ensuring custom print of all information in your corporate colours.

The key difference in the three Table Covers is the shape/fit. The Stretch Fabric Fitted is the newest and "in vogue" Table Cover. The table legs fit into the bottom corners of the table cover, stretching it and holding the sides taut.
